Hi Kyle,

As per your request for feedback, I discussed it with Reza today. The feature and functions look good for the beginning stage. I am assuming, small changes if necessary could be made later. However, improvements can be made in graphics or UI, it is very plain. Looks black and white. I would suggest adding more colours to differentiate things. Make it more eye catching.

Secondly, all changes are dependent on the solution you guys come up with. Since beacons only communicate one-way, you must come with some strategy how you want to deploy your beacons to achieve the goal.

I will write another email with our proposed solution. You don't have to follow this, but this is one way of doing it.

Hi Kyle,

Can you resend the demo. I can look into it and give you some feedback.

Hi Simran,

It's Kyle from the computer science bus tracking team. Reza said he would get back to us with by last Friday with feedback on the mock up demo we sent. I'm just wondering if we can expect that any time soon?

Thanks,
Kyle
